INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Members of the City Council Annandale, Minnesota

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Annandale, Minnesota (the City), as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of December 31, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

2 *Members of the Governmental Audit Quality Center, American Institute of Certified Public Accountants and the Minnesota Society of Certified Public Accountants

BLANK INTENTIONALLY

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information, such as management's discussion and analysis and pension liability schedules as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The supplemental information as listed in the table of contents under supplemental section are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

THIS PAGE IS LEFT

BLANK INTENTIONALLY

Prior Year Comparative Information

We have previously audited the City's 2020 financial statements, and we expressed unmodified audit opinions on the respective financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information in our report dated June 2, 2021. In our opinion, the partial comparative information presented herein as of and for the year ended December 31, 2020, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 20, 2022, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Annandale (the City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2021.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2021 fiscal year include the following:

- (1) The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$20,978,709 (net position). Of this amount, \$4,725,172 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- (2) Capital assets, less depreciation, total \$21,684,785, representing a broad base of city-wide infrastructure.
- (3) As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$4,485,597. \$3,268,161 of this total amount, over 73%, is available for use within the City's designations.
- (4) At the end of the current fiscal year, unassigned fund balance for the General fund was \$2,189,507, or 101%, of total General fund expenditures.
- (5) The City had a decrease in net position for governmental activities of \$491,449 and an increase of \$2,956,197 for business-type activities during the current fiscal year, with an overall increase of \$2,464,748.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis serves as an introduction to the City's basic financial statements, which consist of three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. The report also contains other supplementary information in addition to the basic financial statements.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of combining and individual fund financial statements and schedules that further explain and support the information in the financial statements. Figure 1 shows how the required parts of the annual report are arranged and relate to one another. In addition to these required elements, we have included a section with combining and individual fund financial statements and schedules that provide details about nonmajor governmental funds, which are added together and presented in single columns in the basic financial statements.

FIGURE 1 – REQUIRED COMPONENTS OF THE CITY'S ANNUAL FINANCIAL REPORT

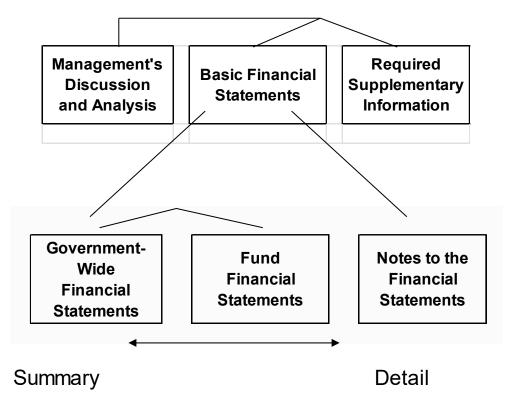

Figure 2 summarizes the major features of the City's financial statements, including the portion of the City government they cover and the types of information they contain. The remainder of the overview section of management's discussion and analysis explains the structure and contents of each of the statements.

		Fund Financial Statements		
	Government-wide Statements	Governmental Funds	Proprietary Funds	
Scope	Entire City government (except fiduciary funds) and the City's component units	The activities of the City that are not proprietary or fiduciary, such as police, fire and parks	Activities the City operates similar to private businesses, such as the water and sewer system	
Required financial statements	 Statement of Net Position Statement of Activities 	 Balance Sheet Statement of Revenue, Expenditures, and Changes in Fund Balances 	 Statement of Net Position Statement of Revenues, Expenses and Changes in Net Position Statement of Cash Flows 	
Accounting Basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	
Type of asset/liability information	All assets and liabilities, both financial and capital, and short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital asset included	All assets and liabilities, both financial and capital, and short-term and long- term	
Type of inflow/outflow information	All revenues and expenses during year, regardless or when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during the year; regardless of when cash is received or paid	

Figure 2 Major features of the Government-wide and Fund Financial Statements

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the City's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *Statement of Activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes). The 2021 Statement provides for an increase in net position in the governmental funds and an increase in the business-type activities, additionally the investment in capital assets increased in the governmental activities and decreased in the business-type activities.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, public works, parks and recreation, economic development, and interest on long-term debt. The business-type activities of the City include the water, sewer, refuse and storm water utilities.

The government wide financial statements can be found on pages 20 and 21 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the governmentwide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financial decisions. The Governmental Funds Balance Sheet and Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains thirty-one individual governmental funds. Information is presented separately in the Governmental Funds Balance Sheet and in the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances for the General fund and Debt Service funds. Data from the debt service and other nonmajor governmental funds are combined into a single, aggregated presentations. Individual fund data for each of these debt service and nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General fund to demonstrate compliance with this budget.

The basic governmental funds financial statements can be found on pages 23 - 27 of this report.

Proprietary Funds

The City maintains only one type of Proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the governmental-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The Proprietary funds financial statements provide separate information for the Enterprise funds, all of which are major funds of the City.

The basic Proprietary fund financial statements can be found on pages 28 - 33 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The Notes to the Financial Statements can be found on pages 34 - 67 of this report.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's share of net pension liabilities for defined benefits plans and schedules of contributions. Required supplementary information can be found starting on page 69 of this report.

Other Information

The combining statements and schedules referred to earlier in connection with debt service and nonmajor governmental funds are presented following the required supplementary information. Combining and individual fund financial statements and schedules start on page 78 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$20,978,709 at the close of the most recent fiscal year.

By far the largest portion of the City's net position reflects its investment in capital assets (e.g. land, buildings, machinery, and equipment) less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

A condensed version of the Statement of Net Position on December 31, 2021, follows:

City of Annandale's Summary of Net Position

	Governmental Activities			Business-type Activities			
	2021	2020	Increase (Decrease)	2021	2020	Increase (Decrease)	
Assets							
Current and other assets	\$ 6,503,698	\$ 6,138,718	\$ 364,980	\$ 717,499	\$ 502,071	\$ 215,428	
Equity interest	-	-	-	6,581,047	6,732,692	(151,645)	
Capital assets	10,346,147	12,031,104	(1,684,957)	11,338,638	9,849,862	1,488,776	
	16,849,845	18,169,822	(1,319,977)	18,637,184	17,084,625	1,552,559	
Deferred Outflows of Resources							
Pension plan deferments	893,143	540,814	352,329	148,309	47,320	100,989	
Liabilities							
Current liabilities	1,047,441	1,219,310	(171,869)	1,454,225	1,585,617	(131,392)	
Long-term liabilities	6,295,778	7,254,553	(958,775)	5,318,314	6,632,484	(1,314,170)	
C	7,343,219	8,473,863	(1,130,644)	6,772,539	8,218,101	(1,445,562)	
Deferred Inflows of Resources						<u>_</u>	
Pension plan deferments	1,264,993	610,548	654,445	169,021	26,108	142,913	
Excess of total assets and defer outflows of resources over total liabilities and deferred							
inflows of resources	\$ 9,134,776	\$ 9,626,225	\$ (491,449)	\$ 11,843,933	\$ 8,887,736	2,956,197	
Net Position							
Net Investment in							
Capital Assets	\$ 4,013,792	\$ 4,910,905	\$ (897,113)	\$ 10,152,637	\$ 8,413,858	\$ 1,738,779	
Restricted	1,894,021	1,597,510	296,511	193,087	150,610	42,477	
Unrestricted	3,226,963	3,117,810	109,153	1,498,209	323,268	1,174,941	
Total net position	\$ 9,134,776	\$ 9,626,225	\$ (491,449)	\$ 11,843,933	\$ 8,887,736	\$ 2,956,197	

Assets of the governmental activities decreased in 2021 by \$1,319,977. This decrease was predominantly a result of capital assets being transferred to the business-type activities related to infrastructure on a completed construction project. The transferred capital assets were the primary reason total assets increased for the business-type activities of \$1,552,559. The decrease in long-term liabilities of both the governmental activities and business-type activities is associated with scheduled principal payments on long-term debt outstanding as well as a decrease in their net pension liabilities.

A portion of the City's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position \$4,725,172 may be used to meet the City's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net position for the government activities and the business-type activities.

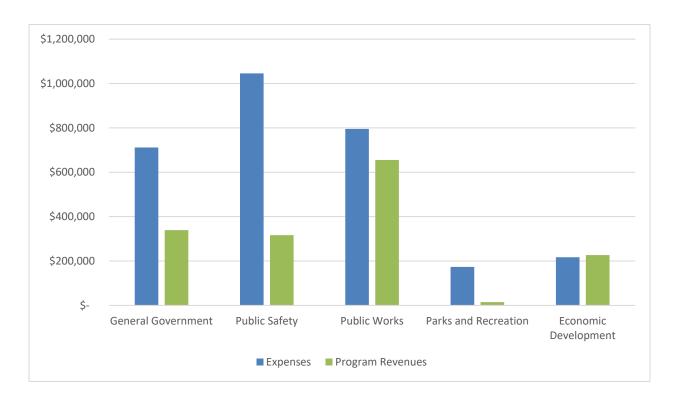

Governmental and business-type activities increased the City's net position by \$2,464,748. Key elements of this increase are as follows:

	Gov	ernmental Activit	ies	Business-type Activities			
			Increase			Increase	
	2021	2020	(Decrease)	2021	2020	(Decrease)	
Revenues							
Program revenues

Net position - December 31	\$ 9,134,776	\$ 9,626,225	\$ (491,449)	\$ 11,843,933	\$ 8,887,736	\$2,956,197	

City of Annandale's Changes in Net Position

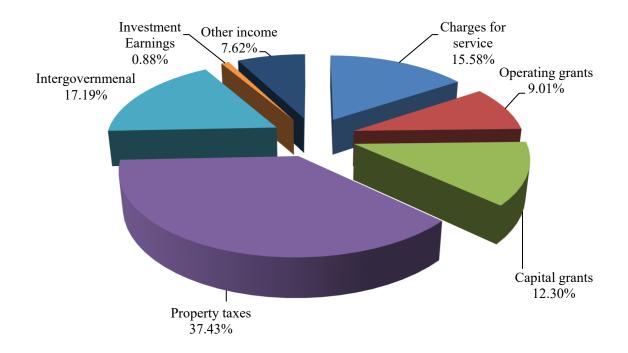

Net position for the governmental activities decreased \$491,449 in 2021, this was decrease of \$932,752 from the prior year. The majority of the change was due to transfers of capital assets to the business-type activities. Revenues of the governmental activities experienced an increase of \$890,245 related to special assessments and intergovernmental revenue from Federal sources. Business-type net position increased \$2,956,97, which was an increase of \$2,224,389 over the prior year. Increased transfers along with a deficit change in the equity interest of the joint venture resulted in the overall reduced change in net position.

Below are specific graphs that provide comparisons of the governmental activities' direct program revenues with their expenditures. Any shortfalls in direct revenues are primarily supported by property tax levy or general state aid.

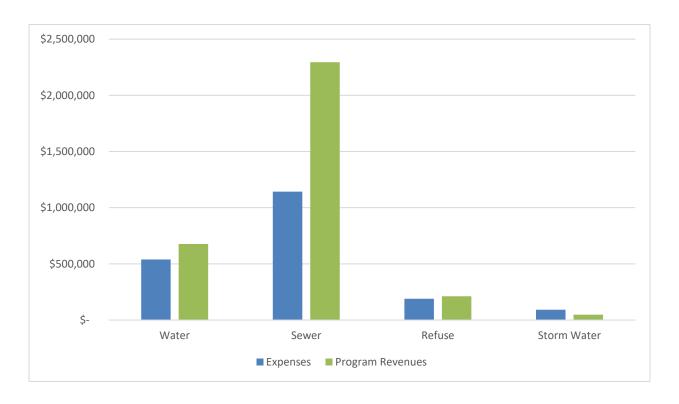

Expenses and Program Revenues – Governmental Activities

Revenues by Source – Governmental Activities

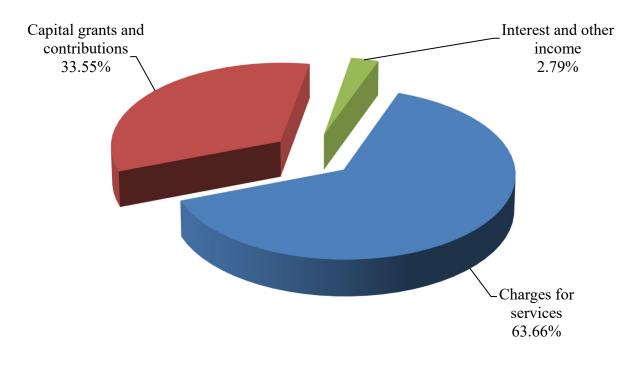

Below are specific graphs that provide comparisons of the business-type activities' direct program revenues with their expenditures. Excess revenues are retained within each fund until such time that capital replacement is needed.

Expenses and Program Revenues – Business-Type Activities

Revenue by Source – Business-Type Activities

FUND FINANCIAL ANALYSIS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financial requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$4,485,597. The unreserved fund balance constitutes \$3,268,161 of the total combined ending fund balance. The remainder of the fund balance is either not in spendable form or is reserved and is not available for new spending because it has already been committed to debt service payments and special revenue funds and other restrictions in the amount of \$1,217,436.

The General fund is the chief operating fund of the City. At the end of the current year, the fund balance of the General fund was \$2,554,744. As a measure of the General fund's liquidity, it may be useful to compare total fund balance to total expenditures. Total unassigned fund balance represents 101% of total 2021 actual expenditures. The General fund balance increased \$344,135, during the year, primarily due to intergovernmental revenues related to COVID.

The Debt Service fund had a fund balance increase of \$8,206. The fund was established to properly account for the resources necessary to meet debt service requirements.

Proprietary Funds

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Other factors concerning the finance of the fund have already been addressed in the discussion of the City's business-type activities.

The City's Proprietary funds have unrestricted net position as follows:

Water fund	\$ 505,498
Sewer fund	\$ 970,774
Refuse fund	\$ 31,770
Storm water fund	\$ (9,833)

BUDGETARY HIGHLIGHTS

General Fund.

The City increased its general tax levy collectible in 2021 by 4.0% from the 2020 levy. Local government aid from the state has stabilized and with budget surpluses at the state level the last few years it appears that source of revenue is in good shape. There were no budget amendments during the year, and the City budgeted expenditures to exceed revenues by \$38,368.

Revenues were over the budgeted sources by \$426,168, with the following significant variances:

- Intergovernmental revenue of \$206,949
- Charges for services of \$62,026
- Other revenues of \$97,837

Expenditures were over the budgeted appropriations by \$82,665, with the following significant variances:

- General government was over budget by \$38,434
- Public safety was over budget by \$50,449

CAPITAL ASSET AND DEBT ADMINISTRATION

CAPITAL ASSETS

The city continued to invest in capital equipment to provide the best services for its residents. Many donations and grants were obtained to help offset purchase costs. All bonded debt was reduced with annual payments.

The City's investment in capital assets for its governmental and business-type activities as of December 31, 2021, amounts to \$21,684,785 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, machinery and equipment, and infrastructure.

Major capital asset events during the current fiscal year included the following:

- > Completion of the 2020 street and utility project
- Design work for the Hemlock project
- ➢ 2021 Police cruiser
- ➢ 2021 Police truck
- Extraction equipment

City of Annandale's Capital Assets

LONG-TERM DEBT

At the end of the fiscal year, the City had total long-term debt of \$13,506,092. This consisted of \$5,464,000 for G.O. improvement bonds/notes, \$80,000 for G.O. bonds/certificates, \$745,000 for G.O. tax increment bonds, \$6,404,000 for G.O. revenue bonds, \$700,544for net pension liability, \$69,193 for compensated absences, and \$43,355 for bond premiums. State statutes limit the amount of general obligation debt a Minnesota city may issue to 3% (percent) of the total estimated market value. More detailed information on the City's long-term debt is presented in the Notes to the Financial Statement.

Key elements of long-term debt are as follows:

	2021		2020		Increase (Decrease)	
Governmental Activities:						
General Obligation Bonds	\$	6,289,000	\$	7,076,000	\$	(787,000)
Total Governmental Activities Long-Term Debt		6,289,000		7,076,000		(787,000)
Business-type Activities:						
General Obligation Revenue Bonds		6,404,000		7,631,000	((1,227,000)
Total Long-Term Debt	\$	12,693,000	\$	14,707,000	\$ ((2,014,000)
Bonded Debt:						
General Obligation Bonds	\$	6,289,000	\$	7,076,000	\$	(787,000)
General Obligation Revenue Bonds		6,404,000		7,631,000	((1,227,000)
Total Bonded Debt	\$	12,693,000	\$	14,707,000	\$ ((2,014,000)

FACTORS BEARING ON THE CITY'S FUTURE

The economic outlook for Wright County remains stable. The economy around the Annandale area remains strong with continued strong land prices. The tax capacity of the City increased by \$215,696, or 7.9%, between 2020 and 2021. New construction, particularly home construction, contributed to this increase along with an increase in market valuations for residential properties. New construction was stable in 2021, with 13 permits approved for new homes. Initial indications are that tax capacity is expected to remain stable with potential for slight growth going forward. All of these factors were considered in preparing the City's budget for 2021 and will be for the 2022 fiscal year as well.

For the 2021 fiscal year, general fund revenue and expenditure projections remained conservative. The 2021 general fund budget for revenues was \$2,154,631.00 and expenditures was \$2,192,782.77. The 2021 general fund budget includes funding for the following:

- Legislative Functions of the City
- Operational expenses including wages, utilities and supplies for administering the Planning and Zoning, Administration, Public Safety, Police and Fire and Public Works functions of the City
- Capital Expenditure Transfers to cover capital outlay for the Administration, Public Safety and Public Works functions of the City.

The 2021 proprietary fund (water, sewer, refuse and storm water) budget is \$3,096,183 for revenues and \$3,223,025 for expenditures, resulting in a net loss of \$102,233. Reflected in the 2021 budget is a 3% general rate increase in water rates, 2.5% increase in sewer rates and a 0% rate increase in refuse and storm water rates. The 2021 proprietary fund budget includes funding for the following:

- Operational expenses including wages, utilities and supplies related to water, sewer, refuse and storm water services
- Debt service expenses related to water, sewer, refuse and storm water funds

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the City Administrator, City of Annandale, 30 Cedar Street East, Annandale, MN, 55302.

RECONCILIATION OF THE BALANCE SHEET TO THE STATEMENT OF NET POSITION GOVERNMENTAL FUNDS December 31, 2021

Total Fund Balances - Governmental Funds	\$ 4,485,597
Amounts reported for governmental activities in the Statement of Net Position are different because:	
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds.	
Cost of capital assets	33,522,170
Less: Accumulated depreciation	(23,176,023)
Long-term liabilities, including compensated absences, are not due and payable in the current period and therefore are not reported as liabilities in the funds.	
Bonds payable	(6,289,000)
Discount/Premiums	(43,355)
Compensated absences payable	(69,193)
Long-term receivables will be collected in subsequent years, but are not available soon enough to pay for the current period's expenditures and, therefore, are deferred inflows of resources in the funds.	
Delinquent property taxes	11,323
Special assessments	890,935
Net pension liabilities are not recognized under the current financial resource measurement focus and, therefore, have no effect on fund balance	
Net pension liability - general employees retirement pension fund	(301,434)
Net pension liability - public employees police and fire pension fund	(230,796)
Net pension asset - volunteer firemen's relief pension fund	769,083
Deferred inflows and outflows of resources related to the pension liabilities are not recognized under the current financial resources measurement focus and, therefore, have no effect on fund balance	
Deferred outflows of resources related to pensions	893,143
Deferred inflows of resources related to pensions	(1,264,993)
Governmental funds do not report a liability for accrued interest payable until due and payable.	 (62,682)
Total Net Position - Governmental Activities	\$ 9,134,776

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES - GOVERNMENTAL FUNDS For the Year Ended December 31, 2021

Net Change in Fund Balances - Governmental Funds	\$ (30,688)
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets are capitalized and allocated over their estimated useful lives and reported as depreciation expense.	
Capital outlay	762,042
Depreciation expense	(600,710)
Assets contributed to business-type activities	(1,852,092)
Loss on disposed asset	5,802
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes the current financial resources. Neither transaction, however, has any effect on net position.	
Principal repayments	787,000
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrued, regardless of	
when it is due.	25,686
Pension expense in the Statement of Activities is recognized as the change in net pension liabilities, including the amortization of layered deferred inflows and deferred outflows of resources of the current and prior periods, this does not require the use of current financial resources, and therefore is not reported in the government funds.	
Pension expense	189,080
Certain revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.	
Delinquent property taxes	823
Special assessments	260,725
Accounts receivable	(25,700)
Some expenses in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental	
funds. Compensated absences	 (13,416)
Change in Net Position - Governmental Activities	\$ (491,449)

ANNANDALE, MINNESOTA

STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE - BUDGET AND ACTUAL GENERAL FUND For the Year Ended December 31, 2021

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting entity

The City of Annandale, Minnesota (the City) operates under the "Optional Plan A" form of government as defined in Minnesota statutes. Under this plan, the government of the City is directed by a City Council composed of an elected Mayor and four elected City Council Members. The City Council exercises legislative authority and determines all matters of policy. The City Council appoints personnel responsible for the proper administration of all affairs relating to the City.

The City has considered all potential units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the City are such that exclusion would cause the City's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board (GASB) has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the primary government to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the primary government. As required by accounting principles generally accepted in the United States of America, these financial statements present the City and its component units, entities for which the City is financially accountable.

Component units for which the City has been determined to be financially accountable can be blended with the primary government or be included as a discrete presentation. Blended component units, although legally separate entities are in substance part of the City's operations and so data from these units are combined with data of the City. Each discretely presented component unit, on the other hand, is reported in a separate column in the financial statements to emphasize it is legally separate from the City. Included in the City's reporting entity, based upon the application of these criteria, are the following blended component units. The blended component units presented have a December 31 year end.

Economic Development Authority. The Economic Development Authority (the EDA) was created pursuant to Minnesota statutes 469.090 through 469.108. The five-member Board of Directors carries out economic and industrial development and redevelopment within the City in accordance with policies established by the City. Separate financial statements are not issued for this component unit.

Housing and Redevelopment Authority. The Annandale House and Redevelopment Authority (the HRA) was created pursuant to Chapter 487 of the Minnesota Session Laws of 1947. The HRA was created by the City to carry out certain redevelopment projects. The governing board is comprised of all five members of the City Council. Separate financial statements are issued for this component unit.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all nonfiduciary activities of the City. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Interest on general long-term debt is considered an indirect expense and is reported separately in the Statement of Activities. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues. Internally dedicated revenues are reported as general revenues rather than as program revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Aggregate information for the remaining nonmajor governmental funds is reported in a single column in the fund financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 1 <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> – (Continued)

C. Measurement focus, basis of accounting and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements and the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available.

Non-exchange transactions, in which the City receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the year for which the tax is levied. Revenue from grants, entitlements, and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before eligibility requirements are met are also recorded as unearned revenue. On the modified accrual basis, receivables that will not be collected within the available period have also been reported as deferred inflows of resources in the fund financial statements.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The City reports the following major governmental funds:

The *General fund* is the City's primary operating fund. It accounts for all financial resources of the City, except those required to be accounted for in another fund.

The *Debt Service fund* accounts for the servicing of general long-term debt not being financed by proprietary funds.

The City reports the following major proprietary funds:

The *Water fund* accounts for the costs associated with the City's water utility system and ensures that user charges are sufficient to meet those costs.

The Sewer fund accounts for the costs associated with the City's sewer utility system and ensures that user charges are sufficient to meet those costs.

The Refuse fund accounts for the costs associated with refuse collection within the City.

The *Storm Sewer fund* accounts for the costs associated with the City's storm water utility system and ensures that user charges are sufficient to meet those costs.

As a general rule, the effect of interfund activity has been eliminated from government-wide financial statements. Exceptions to this general rule are charges between the City's water and sewer functions and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 1 <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> – (Continued)

D. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position/fund balance

Deposits and investments

The City's cash and cash equivalents are cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cash balances from all funds are pooled and invested, to the extent available, in certificates of deposit and other authorized investments. Earnings from such investments are allocated based on applicable participation by each of the funds.

The City may also invest idle funds as authorized by Minnesota statutes, as follows:

- 1. Direct obligations or obligations guaranteed by the United States or its agencies.
- 2. Shares of investment companies registered under the Federal Investment Company Act of 1940 and received the highest credit rating, rated in one of the two highest rating categories by a statistical rating agency, and have a final maturity of thirteen months or less.
- 3. General obligations of a state or local government with taxing powers rated "A" or better; revenue obligations rated "AA" or better.
- 4. General obligations of the Minnesota Housing Finance Agency rated "A" or better.
- 5. Bankers' acceptances of United States banks eligible for purchase by the Federal Reserve System.
- 6. Commercial paper issued by United States banks, corporations, or their Canadian subsidiaries, of highest quality category by at least two nationally recognized rating agencies, and maturing in 270 days or less.
- 7. Repurchase or reverse repurchase agreements and securities lending agreements with financial institutions qualified as a "depository" by the government entity, with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000, a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York, or certain Minnesota securities broker-dealers.
- 8. Guaranteed Investment Contracts (GIC's) issued or guaranteed by a United States commercial bank, a domestic branch of a foreign bank, a United States insurance company, or its Canadian subsidiary, whose similar debt obligations were rated in one of the top two rating categories by a nationally recognized rating agency.

Investments are generally stated at fair value, except for investments in certain external investment pools, which are stated at amortized cost. Short-term, highly liquid debt instruments (including commercial paper, bankers' acceptance, and U.S. treasury and agency obligations) purchased with a remaining maturity of one year or less are also reported at amortized cost. Investment income is accrued at the Balance Sheet date.

The City categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument. Financial assets and liabilities recorded on the combined statements of financial position are categorized based on the inputs to the valuation techniques as follows:

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Level 1 – Financial assets and liabilities are valued using inputs that are unadjusted quoted prices in active markets accessible at the measurement date of identical financial assets and liabilities.

Level 2 – Financial assets and liabilities are valued based on quoted prices for similar assets, or inputs that are observable, either directly or indirectly for substantially the full term through corroboration with observable market data.

Level 3 – Financial assets and liabilities are valued using pricing inputs which are unobservable for the asset, inputs that reflect the reporting entity's own assumptions about the assumptions market participants and would use in pricing the asset.

Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

See Note 3 for the City's recurring fair value measurements as of December 31, 2021. The City has adopted a formal investment policy.

Property taxes

The City Council annually adopts a tax levy and certifies it to the County in December for collection in the following year. The County is responsible for collecting all property taxes for the City. These taxes attach an enforceable lien on taxable property within the City on January 1 and are payable by the property owners in two installments. The taxes are collected by the County Treasurer and tax settlements are made to the City during January, June, and December each year.

Taxes payable on homestead property, as defined by Minnesota statutes, were partially reduced by a market value credit aid. The credit is paid to the City by the State in lieu of taxes levied against the homestead property. The State remits this credit in two equal installments in October and December each year.

Delinquent taxes receivable include the past six years' uncollected taxes. Delinquent taxes have been offset by a deferred inflow of resources for delinquent taxes not received within 60 days after year end in the fund financial statements.

Accounts receivable

Accounts receivable include amounts billed for services provided before year end. Unbilled utility enterprise fund receivables are also included for services provided in 2021. The City annually certifies delinquent water and sewer accounts to the County for collection in the following year. Therefore, there has been no allowance for doubtful accounts established.

Notes receivable

Notes receivable represents loans made to various commercial entities throughout the City. An allowance has been established and was determined based on historical bad debt experience related to the nature of the receivable balance.

Special assessments

Special assessments represent the financing for public improvements paid for by benefiting property owners. These assessments are recorded as receivables upon certification to the County. Special assessments are recognized as revenue when they are received in cash or within 60 days after year end. All governmental special assessments receivable are offset by a deferred inflow of resources in the fund financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Land held for resale

Land held for resale is carried at the lower of cost or net realizable value.

Inventory and Prepaid items

All inventories are stated at the lower of cost or market on the first-in, first-out (FIFO) method. The costs of governmental fund-type inventories are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

Interfund receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a nonspendable fund balance account in applicable governmental funds to indicate they are not available for appropriation and are not expendable available financial resources.

Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than the thresholds below (amount not rounded) and an estimated useful life in excess of one year. For financial statement purposes only, a capitalization threshold is established for each capital asset category as follows:

Assets	Capitalization Threshold
Land improvements	\$ 10,000
Buildings and improvements	25,000
Infrastructure	100,000
Machinery and equipment	5,000

As the City constructs or acquires capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or extend its useful life beyond the original estimate. In the case of donations, the City values these capital assets at the estimated fair value of the item at the date of its donation.

Property, plant, and equipment of the City, as well as component units, are depreciated using the straight-line method over the following estimated useful lives:

Assets	Useful Lives in Years
Buildings and improvements	15 to 75
Infrastructure	20 to 60
Machinery and equipment	3 to 15

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 1 <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> – (Continued)

Compensated absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the City will compensate the employees for the benefits through paid time-off or some other means. The liability for vacation benefits is recorded as part of long-term obligations. Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those that the City has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employee wage rates at year end taking into consideration any limits specified in the City's termination policy. The City records a liability for accumulated unused sick leave for employees that have reached ten years of service by age 50. All compensated absences are accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. The general fund is typically used to liquidate governmental compensated absences payable.

Postemployment benefits other than pensions (OPEB)

Minnesota Statutes require the City to allow retired employees to stay on the health care plan with the retiree responsible to pay the entire premium for continuation coverage. Employees of the City pay health care premiums based on level of coverage, without consideration to age. The City's personnel policy does not provide for any contributions upon employee retirement, thus, the City does not expect any future retirees to elect to continue coverage, and has no experience with past retirees electing coverage. The implicit rate subsidy factor in postemployment health care expenses is considered immaterial, therefore, no liability is accrued for OPEB.

Deferred outflows/inflows of resources

In addition to liabilities, the statement of financial position and fund financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

In addition to assets, the statement of financial position and fund financial statements will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of resources that is applicable to future reporting period(s) and so will not be recognized as an outflow of resources (expense) until that time.

Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA), Annandale Volunteer Fire Relief Association (VFRA) and additions to/deductions from PERA's fiduciary net position and VFRA's fiduciary net position have been determined on the same basis as they are reported by PERA and VFRA, except that PERA's fiscal year end is June 30. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

PERA has a special funding situation for their public employees police and fire pension funds. The State of Minnesota contributes \$9 million annually on October 1 until both PEPFP and MSRS State Patrol become 90% funded (on a Market Value of Asset Basis).

Long-term obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are delayed and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net position

In the government-wide financial statements, net position represents the difference between assets and liabilities. Net position is displayed in three components:

- a. Net investment in capital assets Consists of capital assets, net of accumulated depreciation reduced by any outstanding debt attributable to acquire capital assets.
- b. Restricted net position Consists of net position balances restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, laws, or regulations of other governments.
- c. Unrestricted net position All other net position balances that do not meet the definition of "restricted" or "net investment in capital assets".

Fund balance

In the fund financial statements, fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of resources reported in the governmental funds. These classifications are defined as follows:

Nonspendable - Amounts that cannot be spent because they are not in spendable form, such as prepaid items.

Restricted - Amounts related to externally imposed constraints established by creditors, grantors, or contributors; or constraints imposed by state statutory provisions.

Committed - Amounts constrained for specific purposes that are internally imposed by formal action (resolution) of the City Council, which is the City's highest level of decision-making authority. Committed amounts cannot be used for any other purpose unless the City Council modifies or rescinds the commitment by resolution.

Assigned - Amounts constrained for specific purposes that are internally imposed. In governmental funds other than the General fund, assigned fund balance represents all remaining amounts that are not classified as nonspendable and are neither restricted nor committed. In the General fund, assigned amounts represent intended uses established by the City Council itself or by an official to which the governing body delegates the authority. The City Council has adopted a fund balance policy which delegates the authority to assign amounts for specific purposes to the City Administrator.

Unassigned - The residual classification for the General fund and also negative residual amounts in other funds.

The City considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available. Additionally, the City would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

The City has formally adopted a fund balance policy for the General fund. The City's policy is to maintain a minimum unassigned fund balance of between 40 - 50 percent of budgeted operating expenditures for cash-flow timing needs.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 2 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary information

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for the General fund. All annual appropriations lapse at fiscal year-end. The City does not use encumbrance accounting.

On or before July 1 of each year, all departments of the City submit requests for appropriations to the City Administrator so that a budget may be prepared. Before September 15, the proposed budget is presented to the City Council for review. The City Council holds public hearings, and a final budget is prepared and adopted in December.

The appropriated budget is prepared by fund, function, and department. The City's department heads, with the approval of the City Administrator, may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of the City Council. The legal level of budgetary control is the department level. Budgeted amounts are as originally adopted or as amended by the City Council. There were no budget amendments during the year.

B. Excess of Expenditures over Appropriations

For the year ended December 31, 2021, the General fund had expenditures over appropriations of \$82,665. Excess expenditures over appropriations was funded with additional revenues.

C. Deficit Fund Equity

The following had fund equity deficits at year end:

Fund	A	mount
Governmental		
Nonmajor - Special Revenue		
Tax Abatement	\$	10,895
TIF District No. 15		1,990
Training Center		229,573
Woodlawn Cemetery		58,874
Nonmajor - Capital Projects		
Hemlock Project		499,163
Debt Service		
G.O. Equipment Certificates of 2016A		17,301

The fund deficits are planned to be eliminated with future interfund transfers.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 3 DETAILED NOTES ON ALL FUNDS

A. Deposits and investments

Deposits

Custodial credit risk for deposits and investments is the risk that in the event of a bank failure, the City's deposits and investments may not be returned, or the City will not be able to recover collateral securities in the possession of an outside party. In accordance with Minnesota statutes and as authorized by the City Council, the City maintains deposits at those depository banks, all of which are members of the Federal Reserve System.

Minnesota statutes require that all City deposits be protected by insurance, surety bond, or collateral. The market value of collateral pledged must equal 110 percent of the deposits not covered by insurance or bonds.

Authorized collateral in lieu of a corporate surety bond includes:

- United States government Treasury bills, Treasury notes, Treasury bonds;
- Issues of United States government agencies and instrumentalities as quoted by a recognized industry quotation service available to the government entity;
- General obligation securities of any state or local government with taxing powers which is rated "A" or better by a national bond rating service, or revenue obligation securities of any state or local government with taxing powers which is rated "AA" or better by a national bond rating service;
- General obligation securities of a local government with taxing powers may be pledged as collateral against funds deposited by that same local government entity;
- Irrevocable standby letters of credit issued by Federal Home Loan Banks to a municipality accompanied by written evidence that the bank's public debt is rated "AA" or better by Moody's Investors Service, Inc., or Standard & Poor's Corporation; and
- Time deposits that are fully insured by any federal agency

Minnesota statutes require that all collateral shall be placed in safekeeping in a restricted account at a Federal Reserve Bank, or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral. The selection should be approved by the government entity.

On December 31, 2021, the carrying amount of deposits was \$2,232,564 and the bank balance was \$2,282,298. Of the bank balance, \$500,000 was covered by federal depository insurance. The remaining balance was covered by collateral held by the City's agent in the City's name.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 3 <u>DETAILED NOTES ON ALL FUNDS</u> – (Continued)

Investments

Investments are subject to various risks, the following of which are considered the most significant:

Custodial Credit Risk – For investments, this is the risk that in the event of a failure of the counterparty to an investment transaction (typically a broker-dealer) the City would not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investments in investment pools and money markets are not evidenced by securities that exist in physical or book entry form and, therefore, are not subject to custodial credit risk disclosures. Although the City's investment policies do not directly address custodial credit risk, it typically limits its exposure by purchasing insured or registered investments, or by the control of who holds the securities.

Credit Risk – This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Minnesota Statute 118A.07 limits the City's investments.

Concentration Risk – This is the risk associated with investing a significant portion of the City's investments (considered 5 percent or more) in the securities of a single issuer, excluding U.S. guaranteed investments (such as treasuries), investment pools, and mutual funds. The City's investment policies do not address concentration risk.

Negotiable certificates of deposit

Synchrony Bk Retail	\$ 101,637
BMO Harris Bank, Chicago	244,589
BMW Bank of North Amer	176,735
State Bank of India New York	101,491
Emerbank USA, Salt Lake	154,487
Texas Capital Bank	199,981
Synchrony Bank Draper	113,680
Nonnegotiable certificates of deposit	
Lake Central Bank, Annandale	251,001

Interest Rate Risk – This is the risk of potential variability in the fair value of fixed rate investments resulting from changes in interest rates (the longer the period for which an interest rate is fixed, the greater the risk). The City's investment policies do not limit the maturities of investments; however, when purchasing investments, the City considers such things as interest rates and cash flow needs.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 3 DETAILED NOTES ON ALL FUNDS - (Continued)

As of December 31, 2021, the City had the following investments that are insured or registered, or securities held by the City's agent in the City's name:

	Credit Risk		Fair Value Measurements	Interest Risk - Maturity Duration in Years		
Deposit/Investments	Rating	Agency	Using	Less Than 1	1 to 5	Total
Pooled investment at amortized cost) I (D)	27/4	27/1	27/4	¢ 500 040
Broker money market funds	N/R	N/R	N/A	N/A	N/A	\$ 522,848
M innesota municipal money market fund liquid class	N/R	N/R	NAV	N/A	N/A	37,000
M innesota municipal money market fundmax class	N/R	N/R	NAV	N/A	N/A	2,717
Investment pools						
Negotiable certificates of deposit	N/R	N/R	Level 2	301,618	890,830	1,192,448
Nonpooled investments						
Non-negotiable certificates of deposit	N/R	N/R	Level 2	251,001	-	251,001
Total investments						\$ 2,006,014

The City's investment in certain money market funds are measured at the net asset value (NAV) per share provided by the pool, which approximates fair value in accordance with Rule 2a-7 of the Investment Company Act of 1940. The NAV method of valuation values a security at its cost on the date of purchase and thereafter assumes a constant amortization to maturity of any discount or premium, regardless of the impact of fluctuating interest rates on the market value of the investments. For U.S. Government money market investments valued at the NAV, there are no unfunded commitments, redemption frequency is daily, and there is no redemption notice. For 4M Fund investments valued at the NAV, there are no unfunded commitments, redemption frequency is daily, and there is no redemption notice for the Liquid Class; the redemption notice period is 14 days for the MAX Class.

A reconciliation of cash and investment as shown on the Statement of Net Position for the City is as follows:

	Primary Government		
Cash and Cash equivalents	\$ 2,232,564		
Investments		2,006,014	
Total Cash and investment	\$ 4,238,578		
Unrestricted cash and investments	\$	4,045,491	
Restricted cash and investments		193,087	
Total cash and investments	\$	4,238,578	

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 3 <u>DETAILED NOTES ON ALL FUNDS</u> – (Continued)

B. Receivables

Taxes receivables as of the year-end for the City are reported on the Statement of Net Position. There are no estimates for allowances for uncollectible property tax and special assessment receivables.

Intergovernmental receivables on the statement of net position consist of the following:

	Receivable		Allowance for			
Nature of Receivable	Balance		Uncollectibles		Total	
Charges for services	\$	5,252	\$	-	\$	5,252
Coop dividend		59		-		59
Rental fees		262		-		262
Franchise fees		1,339		-		1,339
Total	\$	6,912	\$	-	\$	6,912

The City, through an award from Minnesota Department of Economic Development, has established a revolving loan program. Revolving loans were made to various commercial entities to assist with canopy removal and storefront façade improvements in 2021. These notes all carry an interest rate of 2% and are collectible in monthly installments with varying maturities. There is no collateral securing these notes and no allowance has been established. The allowance was determined based on historical bad debt experience related to the nature of the receivable balance. The balance of these notes on the Statement of Net Position are \$35,575.

The City also received an award from the Minnesota Investment Fund to provide a partially forgivable note to a local business to assist with a facility expansion and to create or retain full-time employees. This note carries an interest rate of 0% and is collectible in monthly installments maturing in 2028. There is no collateral securing these notes and no allowance has been established. The allowance was determined based on historical bad debt experience related to the nature of the receivable balance. The balance of these notes on the Statement of Net Position are \$68,571.

Governmental funds report *deferred inflows of resources* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *deferred inflows* and *unearned revenue* reported in the governmental funds were as follows:

	Un	available	Unearned		
Special assessments not yet due	\$	888,333	\$	-	
Delinquent special assessments		2,602		-	
Delinquent property taxes		11,323		-	
Fire contracts		-		44,712	
Various escrows		-		34,006	
Total deferred inflows of resources/unearned revenue	\$	902,258	\$	78,718	

The only receivables not expected to be collectible within one year are \$5,000 of delinquent taxes and \$800,000 of special assessments.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 3 <u>DETAILED NOTES ON ALL FUNDS</u> – (Continued)

C. Capital assets

Capital asset activity for the City for the year ended December 31, 2021, was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Governmental activities				
Capital assets not being depreciated				
Land	\$ 2,463,708	\$ -	\$ -	\$ 2,463,708

On December 31, 2021, the governmental activities transferred capital assets to the business-type activities with a book value of \$1,852,093 for their share of assets placed in service during the year related to the 2020 Improvement Project.

D. Long-term debt

General Obligation Revenue Notes

The City issued general obligation revenue notes where the government pledges income derived from the acquired or constructed assets to pay debt service requirements. The City is obligated to levy ad valorem taxes in the event that anticipated income from the acquired or constructed assets will not be sufficient to cover debt service requirements. G.O. revenue notes currently outstanding are as follows:

	Authorized	Interest	Issue	Maturity	Balance at
Description	and Issued	Rate	Date	Date	Year End
G.O. Water Revenue					
Note of 2004	\$ 3,273,194	2.82%	3/4/04	8/20/23	\$ 415,000
G.O. Wastewater Revenue					
Note of 2007	16,036,613	2.22%	9/26/07	8/20/26	5,218,000

Total general obligation r	evenue notes				\$ 6,404,000

General Obligation Tax Increment Bonds

The City issues general obligation tax increment bonds for redevelopment projects. The additional tax increments resulting from increased tax capacity of the redeveloped properties will be used to retire the related debt. General obligation tax increment bonds currently outstanding are as follows:

Description		uthorized d Issued	Interest Rate	Issue Date	Maturity Date	alance at Tear End
G.O. Tax Increment Bonds of 2019A	\$	755,000	3.65%	8/20/19	2/1/39	\$ 745,000
Total G.O. tax increment bo	nds					\$ 745,000

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 3 <u>DETAILED NOTES ON ALL FUNDS</u> – (Continued)

General Obligation Improvement Bonds/Notes

The City issues general obligation improvement bonds/notes to finance various improvements and will be repaid primarily from special assessments levied on the properties benefiting from the improvements. Some issues, however, are partly financed by ad valorem tax levies. All special assessment debt is backed by the full faith and credit of the City. General obligation special assessment bonds currently outstanding are as follows:

Description	 uthorized nd Issued	Interest Rate	Issue Date	Maturity Date	Balance at Year End	
G.O. Improvement						
Bonds of 2008B	\$ 1,175,000	3.00 - 4.125%	2/1/19	2/1/24	\$	300,000

Conduit debt obligation

During 2015, the City entered into an agreement to authorize and sell revenue bonds in the form of notes or other obligations for the purpose of refinancing the cost of the acquisition, construction and equipping of certain senior housing assisted living facilities. Annandale Care Center (nonprofit corp.) issued \$9,300,000 in Health Care Revenue Refunding Bonds of 2015A using the City's bonding rights. The balance outstanding at December 31, 2021 is unknown. The City is in no way liable for the repayment of these bonds.

E. Interfund receivables, payables, and transfers

Interfund transfers

Interfund transfers for the year ended December 31, 2021, consisted of the following:

	Transferred To									
Transferred From	Del	ot Service		onmajor vernmental						
General	\$	-	\$	226,900	\$	226,900				
Nonmajor Governmental		47,000		-		47,000				
Water		70,000		-		70,000				
Sewer		144,000		-		144,000				
Storm Water		42,000				42,000				
Total	\$	303,000	\$	226,900	\$	529,900				

The purpose of the above transfers was to provide funding for debt service, debt service refunding close outs, and operating purposes.

Internal Balances

Receivable Fund	Payable Fund	 Amount		
General	Nonmajor Governmental	\$ 863,516		
General	Sewer	276,500

Note 4 DEFINED BENEFIT PENSION PLANS – STATEWIDE

PUBLIC EMPLOYEES' RETIREMENT ASSOCIATION

A. Plan Description

The City participates in the following cost-sharing multiple-employer defined benefit pension plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA's defined benefit pension plans are established and administered in accordance with *Minnesota Statutes*, Chapters 353 and 356. PERA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code.

General Employees Retirement Plan (GERP)

All full-time and certain part-time employees of the City are covered by the General Employees Plan. General Employees Plan members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

Public Employees Police and Fire Fund (PEPFP)

The Police and Fire Plan, originally established for police officers and firefighters not covered by a local relief association, now covers all police officers and firefighters hired since 1980. Effective July 1, 1999, the Police and Fire Plan also covers police officers and firefighters belonging to local relief associations that elected to merge with and transfer assets and administration to PERA.

B. Benefits Provided

PERA provides retirement, disability, and death benefits. Benefit provisions are established by state statute and can only be modified by the state Legislature. Vested Terminated employees who are entitled to benefits, but are not receiving them yet, are bound by the provisions in effect at the time they last terminated their public service.

GERP Benefits

General Employees Plan benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated Plan members. Members hired prior to July 1, 1989, receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the accrual rate for Coordinated members is 1.2% for each of the first 10 years of service and 1.7% for each additional year. The rates are 2.2% and 2.7%, respectively, for Basic members. Under Method 2, the accrual rate for Coordinated members is 1.7% for all members. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66.

Benefit increases are provided to benefit recipients each January. The postretirement increase is equal to 50 percent of the cost-of-living adjustment (COLA) announced by the SSA, with a minimum increase of at least 1 percent and a maximum of 1.5 percent. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase will receive the full increase. Recipients receiving the annuity or benefit for at least one month but less than a full year as of the June 30 before the effective date of the increase. For members retiring on January 1, 2024, or later, the increase will be delayed until normal retirement age (age 65 if hired prior to July 1, 1989), or age 66 for individuals hired on or after July 1, 1989). Members retiring under Rule of 90 are exempt from the delay to normal retirement.

PEPFP Benefits

Benefits for Police and Fire Plan members first hired after June 30, 2010, but before July 1, 2014, vest on a prorated basis from 50 percent after five years up to 100 percent after ten years of credited service. Benefits for Police and Fire Plan members first hired after June 30, 2014, vest on a prorated basis from 50 percent after ten years up to 100 percent after twenty years of credited service. The annuity accrual rate is 3 percent of average salary for each year of service. For Police and Fire Plan members who were first hired prior to July 1, 1989, a full annuity is available when age plus years of service equal at least 90.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 4 <u>DEFINED BENEFIT PENSION PLANS</u> – (Continued)

Benefit increases are provided to benefit recipients each January. The postretirement increase is fixed at 1 percent. Recipients that have been receiving the annuity or benefit for at least 36 months as of the June 30 before the effective date of the increase will receive the full increase. Recipients receiving the annuity or benefit for at least 25 months but less than 36 months as of the June 30 before the effective date of the increase will receive a reduced prorated increase.

C. Contributions

Minnesota Statutes Chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state legislature.

GERP Contributions

Coordinated Plan members were required to contribute 6.50 percent of their annual covered salary in fiscal year 2021; the City was required to contribute 7.50 percent for Coordinated Plan members. The City's contributions to the General Employees Fund for the year ended December 31, 2021, were \$63,240. The City's contributions were equal to the required contributions as set by state statute.

PEPFP Contributions

Police and Fire Plan members were required to contribute 11.80 percent of their annual covered salary in fiscal year 2021 and the City was required to contribute 17.70 percent for Police and Fire Plan members. The City's contributions to the Police and Fire Fund for the year ended December 31, 2021, were \$68,591. The City's contributions were equal to the required contributions as set by state statute.

D. Pension Costs

GERP Pension Costs

On December 31, 2021, the City reported a liability of \$469,748 for its proportionate share of the GERP's net pension liability. The City's net pension liability reflected a reduction due to the State of Minnesota's contribution of \$16 million to the fund in 2021. The State of Minnesota is considered a non-employer contributing entity and the state's contribution meets the definition of a special funding situation. The State of Minnesota's proportionate share of the net pension liability associated with the City totaled \$14,300.

The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on the City's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2020, through June 30, 2021, relative to the total employer contributions received from all of PERA's participating employers. On June 30, 2021, the City's proportion was 0.0110% which was an increase of 0.0005% from its proportion measured as of June 30, 2020. For the year ended December 31, 2021, the City recognized pension expense of \$(43,529) for its proportionate share of GERP's pension expense. In addition, the City recognized an additional \$1,154 as pension expense (and grant revenue) for its proportionate share of the State of Minnesota's contribution of \$16 million to the General Employees Fund.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 4 DEFINED BENEFIT PENSION PLANS - (Continued)

On December 31, 2021, the City reported its proportionate share of GERP's deferred outflows of resources and deferred inflows of resources from the following sources:

		Deferred tflows of	Deferred Inflows of		
Description	Re	esources	R	esources	
Differences between expected and actual economic experience	\$	3,028	\$	14,191	
Differences between projected and actual investment earnings		50,781		449,000	
Changes in actuarial assumptions		285,796		8,527	
Changes in proportion		40,331		-	
City's contributions subsequent to the measurement date		33,979		-	
Total	\$	413,915	\$	471,718	

\$33,979 reported as deferred outflows of resources related to pensions resulting from City contributions to GERP subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2022. Other amounts reported as deferred outflows and inflows of resources related to GERP pensions will be recognized in pension expense as follows:

	Р	ension		
Year Ending	E	Expense		
December 31,	A	mount		
2022	\$	4,821		
2023		9,435		
2024		4,530		
2025		(110,568)		
2026		-		
Thereafter		-		

PEPFP Pension Costs

On December 31, 2021, the City reported a liability of \$230,796 for its proportionate share of the Police and Fire Fund's net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportionate share of the net pension liability was based on the City's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2020, through June 30, 2021, relative to the total employer contributions received from all of PERA's participating employers. On June 30, 2021, the City's proportion was 0.0299% which was a decrease of 0.0023% from its proportion measured as of June 30, 2020.

The State of Minnesota contributed \$18 million to the Police and Fire Fund in the plan fiscal year ended June 30, 2021. The contribution consisted of \$9 million in direct state aid that does meet the definition of a special funding situation and \$9 million in supplemental state aid that does not meet the definition of a special funding situation. The \$9 million direct state was paid on October 1, 2020. Thereafter, by October 1 of each year, the state will pay \$9 million to the Police and Fire Fund until full funding is reached or July 1, 2048, whichever is earlier. The \$9 million in supplemental state aid will continue until the fund is 90 percent funded, or until the State Patrol Plan (administered by the Minnesota State Retirement System) is 90 percent funded, whichever occurs later. Strong asset returns for the fiscal year ended 2021 will accelerate the phasing out of these state contributions, although we do not anticipate them to be phased out during the fiscal year ending 2022.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 4 DEFINED BENEFIT PENSION PLANS - (Continued)

The State of Minnesota is included as a non-employer contributing entity in the Police and Fire Retirement Plan Schedule of Employer Allocations and Schedule of Pension Amounts by Employer, Current Reporting Period Only (pension allocation schedules) for the \$9 million in direct state aid. Police and Fire Plan employers need to recognize their proportionate share of the State of Minnesota's pension expense (and grant revenue) under GASB 68 special funding situation accounting and financial reporting requirements. For the year ended June 30, 2021, the City recognized pension expense of \$(101,857) for its proportionate share of the Police and Fire Plan's pension expense. The City recognized \$1,887 as grant revenue for its proportionate share of the State of Minnesota's pension expense for the contribution of \$9 million to the Police and Fire Fund.

The State of Minnesota is not included as a non-employer contributing entity in the Police and Fire Pension Plan pension allocation schedules for the \$9 million in supplemental state aid. The City recognized \$2,691 for the year ended December 31, 2021, as revenue and an offsetting reduction of net pension liability for its proportionate share of the State of Minnesota's on-behalf contributions to the Police and Fire Fund.

On December 31, 2021, the City reported its proportionate share of the PEPFP's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description		Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between expected and actual economic experience	\$	45,147	\$	489	
Differences between projected and actual investment earnings		57,229		497,064	
Changes in actuarial assumptions		335,801		145,338	
Changes in proportion		13,678		53,980	
City's contributions subsequent to the measurement date		35,448		-	
Total	\$	487,303	\$	696,871	

\$35,448 reported as deferred outflows of resources related to pensions resulting from City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2022. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

]	Pension		
Year Ending]	Expense		
December 31,		Amount		
2022	\$	(174,478)		
2023		(37,375)		
2024		(45,097)		
2025		(57,178)		
2026		69,112		
Thereafter		-		

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 4 <u>DEFINED BENEFIT PENSION PLANS</u> – (Continued)

E. Actuarial Assumptions

GERP and PEPFP

The total pension liability in the June 30, 2021, actuarial valuation was determined using the following actuarial assumptions:

Key Methods and Assumptions Used in Valuation of Total Pension Liability

Actuarial Information:	
Measurement Date	June 30, 2021
Valuation Date	July 1, 2021
Actuarial Cost Method	Entry Age Normal
Actuarial Assumption:	
Investment Rate of Return	6.50%
Inflation	2.25% per year
Projected Salary Increase	3.00% after 26 years of service

Mortality rates for the General Employees Plan are based on the Pub-2010 General Employee Mortality Table. Mortality rates for the Police and Fire Plan and the Correctional Plans are based on the Pub-2010 Public Safety Employee Mortality tables. The tables are adjusted slightly to fit PERA's experience.

Actuarial assumptions for the General Employees Plan are reviewed every four years. The most recent four-year experience study for the General Employees Plan was completed in 2019. The assumption changes were adopted by the Board and became effective with the July 1, 2020, actuarial valuation. The most recent four-year experience studies for the Police and Fire and the Correctional Plan were completed in 2020 were adopted by the Board and became effective with the July 1, 2021, actuarial valuation.

The following changes in actuarial assumptions occurred in 2021:

General Employees Fund

Changes in Actuarial Assumptions:

- The investment return and single discount rates were changed from 7.50 percent to 6.50 percent, for financial reporting purposes.
- The mortality improvement scale was changed from Scale MP-2019 to Scale MP-2020.

Changes in Plan Provisions:

• There were no changes in plan provisions since the previous valuation.

Police and Fire Fund

Changes in Actuarial Assumptions:

- The investment return and single discount rates were changed from 7.50 percent to 6.50 percent, for financial reporting purposes.
- The inflation assumption was changed from 2.50 percent to 2.25 percent.
- The payroll growth assumption was changed from 3.25 percent to 3.00 percent.
- The base mortality table for healthy annuitants and employees was changed from the RP-2014 table to the Pub-2010 Public Safety Mortality table. The mortality improvement scale was changed from MP-2019 to MN-2020.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 4 <u>DEFINED BENEFIT PENSION PLANS</u> – (Continued)

- The base mortality table for disabled annuitants was changed from the RP-2014 healthy annuitant mortality table (with future mortality improvement according to Scale MP-2019) to the Pub-2010 Public Safety disabled annuitant mortality table (with future mortality improvement according to Scale MP-2020).
- Assumed rates of salary increase were modified as recommended in the July 14, 2020, experience study. The overall impact is a decrease in gross salary increase rates.
- Assumed rates of retirement were changed as recommended in the July 14, 2020, experience study. The changes result in slightly more unreduced retirements and fewer assumed early retirements.
- Assumed rates of withdrawal were changed from select and ultimate rates to service-based rates. The changes result in more assumed terminations.
- Assumed rates of disability were increased for ages 25-44 and decreased for ages over 49. Overall, proposed rates result in more projected disabilities.
- Assumed percent married for active female members was changed from 60 percent to 70 percent. Minor changes to form of payment assumptions were applied.

Changes in Plan Provisions:

• There were no changes in plan provisions since the previous valuation.

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Stocks	34%	5.10%
International Stocks	17%	5.30%
Bonds	25%	0.75%
Alternative Assets	25%	5.90%

F. Discount Rate

GERP and PEPFP

The discount rate used to measure the total pension liability in 2021 was 6.50. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net position of the General Employees Fund was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 4 <u>DEFINED BENEFIT PENSION PLANS</u> – (Continued)

G. Pension Liability Sensitivity

GERP and PEPFP

The following presents the City's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

City's proportionate share of NPL Current 1 % Increase Plan 1 % Decrease 7.50% 5.50% 6.50% Rate City's proportionate share of the GERP net pension liability: \$ 958,049 \$ 469,748 \$ 69,070 City's proportionate share of the \$ PEPFP net pension liability: 732,739 \$ 230,796 \$ (180.673)

H. Pension Plan Fiduciary Net Position

Detailed information about each defined benefit pension plan's fiduciary net position is available in a separately issued PERA financial report. That report may be obtained on the Internet at www.mnpera.org; by writing to PERA at 60 Empire Drive #200, St. Paul, Minnesota, 55103-2088; or by calling (651) 296-7460 or 1-800-652-9026.

VOLUNTEER FIRE RELIEF ASSOCIATION

A. Plan Description

All active or probationary members of the Annandale Fire Department (the Department) are covered by a Defined Benefit Plan (the Plan) administered by the Annandale Fire Relief Association (the Association). The Plan is a single employer retirement plan and is established and administered in accordance with Minnesota statute, chapter 69.

The Association issues a publicly available financial report. The report may be obtained by writing to Annandale Fire Relief Association, P.O. Box K Annandale, Minnesota 55302.

The Association maintains a separate Special fund to accumulate assets to fund the retirement benefits earned by the Department's membership. Funding for the Association is derived from an insurance premium tax in accordance with the Volunteer Fire Relief Association Financing Guidelines Act of 1971 (chapter 261 as amended by chapter 509 of Minnesota statutes 1980). Funds are also derived from investment income.

If a member is terminated prior to age 50 with at least 5 years of service, a deferred lump sum pension payable will be established based on the lump sum pension formula and service at date of termination, reduced for less than 20 years of service. For members that terminate with at least 5 years of service, the Association will pay interest on the deferred service pensions during the period of deferral at the rate established by the Board of Trustees based on date of termination. If a member dies before payment, the benefit will be paid to the participant's beneficiary.

The disability lump sum pension is payable immediately based on the lump sum pension formula and service at date of disability without regard to vesting.

A survivor benefit is paid based on years of service (not less than 5 years) times the lump sum rate in effect at the time of death without regard to vesting, payable to named beneficiary plus a Supplemental Benefit in the amount of 20% of the total benefit paid, but not more than \$2,000.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 4 DEFINED BENEFIT PENSION PLANS - (Continued)

Summary of Participant Data	
Active members	26
Inactive members entitled to future benefits	16
Inactive members or beneficiaries currently	
receiving benefits	0
Total number of participants	40

B. Benefits Provided

Benefits are provided to Fire Department members who reach the age of 50 or have 20 years of service. The benefit upon retirement is a lump sum payment of \$2,800 (effective January 1, 2020) per year of service plus a Supplemental Benefit of 10% of the regular lump sum distribution, but not more than \$1,000. If a member is both age 50 and has completed 5 years of service, but not 20 years of service, the lump sum pension will be reduced by 4% for each year of service less than 20 years.

C. Contributions

The pension plan is funded by fire state aid, investment earnings and, if necessary, employer contributions as specified in Minnesota Statutes, and voluntary City contributions. The State of Minnesota contributed \$56,319 in fire state aid to the plan for the year ended December 31, 2021. Required employer contributions are calculated annually based on statutory provisions. There were no statutorily required contributions to the pension plan for the year ended December 31, 2021. In addition, the City made voluntary contributions of \$3,000 to the plan.

D. Pension Costs

On December 31, 2020, the Association reported an asset of \$769,083. The net pension asset was measured as of December 31, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

The following table presents the changes in net pension liability during the year:

The lump sum benefit amount increased from \$2,600 to \$2,800 during the measurement period.

For the year ended December 31, 2021, the City recognized pension expense of \$(61,940).

On December 31, 2020, the Association reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description		Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between expected and actual economic experience Differences between projected and actual investment earnings Changes in actuarial assumptions City's contributions subsequent to the measurement date	\$	- 70,436 10,479 59,319	\$	78,970 184,559 1,894 -	
Total	\$	140,234	\$	265,423	

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 4 DEFINED BENEFIT PENSION PLANS - (Continued)

\$59,319 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2022. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

	Pension		
Year Ending]	Expense	
December 31,		Amount

2023		(27,776)	
2024		(62,994)	
2025		(34,569)	
2026		(11,441)	
Thereafter		(6,720)	

E. Actuarial Assumptions

The total pension liability in the December 31, 2020, actuarial valuation was determined using the following actuarial assumptions:

Key Methods and Assumptions Used in Valuation of Total Pension Liability

Actuarial Information:	
Measurement Date	December 31, 2020
Valuation Date	December 31, 2020
Actuarial Cost Method	Entry Age Normal
Actuarial Assumption:	
Investment Rate of Return	5.75%
Inflation	2.25% per year
Lump Sum Benefit Increase	N/A*

* GASB rules require that accrued liabilities be based on the terms of the plan in effect on the measurement date. Therefore, the actuary has not reflected any future lump sum multiplier increases even though the Relief Association may have a history of regular benefit increases. Potential increases are contingent on future benefit agreements and statutory average available financing requirements. Any future increases will be reflected at the time they are approved.

Mortality rates for active members, retirees, survivors, and disabilitants were based on RP-2014 tables for males or females, as appropriate, with slight adjustments as follows:

<u>Active:</u> RP-2014 employee generational mortality table projected with mortality improvement scale MP-2019, from a base year of 2006.

<u>Retirees:</u> RP-2014 annuitant generational mortality table projected with mortality improvement scale MP-2019 from a base year of 2006. Male rates are adjusted by a factor of 0.96.

<u>Disabled:</u> RP-2014 annuitant generational mortality table projected with mortality improvement scale MP2019 from a base year of 2006. Male rates are adjusted by a factor of 0.96.

Actuarial assumptions used in the December 31, 2020, valuation were based on the most recent Minnesota PERA Police & Fire Plan actuarial valuation performed on July 1, 2020.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 4 DEFINED BENEFIT PENSION PLANS - (Continued)

The following changes in actuarial assumptions occurred in 2020:

- The mortality assumptions were updated from the rates used in the July 1, 2018, Minnesota PERA Police & Fire Plan actuarial valuation to the rates used in the July 1, 2020, Minnesota PERA Police & Fire Plan actuarial valuation.
- The inflation assumption decreased from 2.50% to 2.25%.

The long-term expected rate of return on pension plan investments is 5.75%. The actuary used a building-block method in which best-estimate ranges of expected future rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These asset class estimates are combined to produce the portfolio long-term expected rate of return by weighting the expected future real rates of return by the current asset allocation percentage (or target allocation, if available) and by adding expected inflation (2.50%) All results are then rounded to the nearest quarter percentage point.

The best estimates of expected future real rates of return were developed by aggregating data from several published capital market assumption surveys and deriving a single best estimate based on the average survey values. These capital market assumptions reflect both historical market experience as well as diverse views regarding anticipated future returns. The expected inflation assumption was developed based on an analysis of historical experience blended with forward looking expectations available in the market data.

Best estimates of geometric real and nominal rates of return for each major asset class included in the pension plan's assets allocation as of the measurement date are summarized in the following table:

Asset Class	Allocation at Measurement Date	Long-Term Expected Real Rate of Return	Long-Term Expected Nominal Rate of Return
Domestic Equity	20.0%	4.90%	7.15%
International Equity	10.0%	5.32%	7.57%
Fixed Income	20.0%	1.40%	3.65%
Real estate and alternative	5.0%	4.43%	6.68%
Cash and equivalents	5.0%	0.09%	2.34%
Total	100.00%		6.55%
Reduced for assumed investment expense			(0.80%)
Net assumed investment return			5.75%

F. Discount Rate

The discount rate used to measure the total pension liability was 5.75%. The liability discount rate was developed using the alternative method described in paragraph 43 of GASB 67, which states that "if the evaluations required by paragraph 41 can be made with sufficient reliability without a separate projection of cash flows into and out of the pension plan, alternative methods may be applied in make the evaluation." The actuary believes that the plan's current overfunded status, combined with statutory funding requirements, provide sufficient reliability that projected plan assets will be adequate to pay future retiree benefits. Therefore, they have used the plan's long-term expected investment return as the liability discount rate.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 4 <u>DEFINED BENEFIT PENSION PLANS</u> – (Continued)

G. Pension Liability Sensitivity

The following presents the Association's net pension liability for plans it participates in, calculated using the discount rate disclosed in the preceding paragraphs, as well as what the Association's net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

Association's Net Pension Asset												
1 Percent Decrease	Current	1 Percent Increase										
4.75%	5.75%	6.75%										
\$ 745,863	\$ 769,083	\$ 791,250										

H. Pension Plan Fiduciary Net Position

Detailed information about the relief association's defined benefit pension plan's fiduciary net position is available in a separately issued financial report. That report may be obtained by writing to the City of Annandale at P.O. Box K Annandale, Minnesota, 55302.

Note 5 OTHER INFORMATION

A. Risk management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters for which the City carries insurance. The City obtains insurance through participation in the League of Minnesota Cities Insurance Trust (LMCIT), which is a risk sharing pool with approximately 800 other governmental units. The City pays an annual premium to LMCIT for its workers compensation and property and casualty insurance. The LMCIT is self-sustaining through member premiums and will reinsure for claims above a prescribed dollar amount for each insurance event. Settled claims have not exceeded the City's coverage in any of the past three fiscal years.

Liabilities are reported when it is probable that a loss has occurred, and the amount of the loss can be reasonably estimated. Liabilities, if any, include an amount for claims that have been incurred but not reported (IBNRs). The City's management is not aware of any incurred but not reported claims.

B. Legal debt margin

In accordance with Minnesota statutes, the City may not incur or be subject to net debt in excess of 3 percent of the market value of taxable property within the City. Net debt is payable solely from ad valorem taxes and therefore excludes debt financed partially or entirely by special assessments, enterprise fund revenues, or tax increments. The City has \$80,000 of debt outstanding subjected to this limit on December 31, 2021.

C. Tax increment districts

The City's tax increment districts are subject to review by the State of Minnesota Office of the State Auditor (OSA). Any disallowed claims or misuse of tax increments could become a liability of the applicable fund. Management has indicated that they are not aware of any instances of noncompliance, which would have a material effect on the financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS DECEMBER 31, 2021

Note 5 OTHER INFORMATION - (Continued)

D. Concentrations

The City receives a significant amount of its annual General fund revenues from the State of Minnesota from the Local Government Aid (LGA). The amount received in 2021 was \$527,753 for LGA. This accounted for 19 percent of General fund revenues.

E. Joint ventures

In September 2003, the City entered into a joint powers agreement with the City of Maple Lake to establish the Annandale-Maple Lake Wastewater Commission (the "Commission"). The purpose of the Commission is to make available wastewater treatment within the present and future boundaries of the Cities, and to serve such other areas as the Commission approves. As part of the joint venture, the City of Annandale agrees to fund the Debt Service and Operating Funds of the Commission according to terms of the agreement. The agreement states a City may terminate the agreement by written notice to the other City. In such event, the City of Annandale shall pay 60% of all costs incurred, except each City shall pay its own attorney's fee. In 2008, both Cities approved amending the joint powers agreement to include the City of Howard Lake, effective January 1, 2009. Each City will then have a one-third equity interest in the Commission. Because there is an explicit measurable equity interest in the joint venture, the interest is reported in the government-wide financial statements, as well as in the Sewer Fund.

F. Subsequent events

On April 15, 2022, the City issued G.O. equipment certificate of 2022A, in the amount of \$617,000 at a stated interest rate of 2.25%. The certificate matures in 9 years.

Note 6 PUBLIC EMPLOYEES DEFERRED COMPENSATION PLAN

The City participates in the Deferred Compensation Plan, a voluntary savings plan administered by Aspire Financial Services LLC for eligible employees. The Deferred Compensation Plan is a tax qualified plan under Section 457 of the Internal Revenue Code and all contributions by or on behalf of employees are tax deferred until time of withdrawal.

Plan benefits depend solely on amounts contributed to the plan plus investment earnings, less administrative expenses. *Minnesota Statutes*, Chapter 352.965, established the Deferred Compensation Plan. An eligible employee who decides to participate contributes a minimum of one percent of salary. Total contributions made by the City during fiscal year 2021 was \$18,306.

NOTES TO THE REQUIRED SUPPLEMENTAL INFORMATION December 31, 2021

Note 1 CHANGE IN ACTUARIAL ASSUMPTIONS AND PLAN PROVISIONS

A. Public Employees Retirement Association – General Employees Retirement Fund

2021 changes:

Changes in Actuarial Assumptions. The investment return and single discount rates were changed from 7.50 percent to 6.50 percent, for financial reporting purposes. The mortality improvement scale was changed from Scale MP-2019 to Scale MP-2020.

Changes in Plan Provisions. There were no changes in plan provisions since the previous valuation.

2020 changes:

Changes in Actuarial Assumptions. The price inflation assumption was decreased from 2.50% to 2.25%. The payroll growth assumption was decreased from 3.25% to 3.00%. Assumed salary increase rates were changed as recommended in the June 30, 2019 experience study. The net effect is assumed rates that average 0.25% less than previous rates. Assumed rates of retirement were changed as recommended in the June 30, 2019 experience study. The changes result in more unreduced (normal) retirements and slightly fewer Rule of 90 and early retirements. Assumed rates of termination were changed as recommended in the June 30, 2019 experience study. The new rates are based on service and are generally lower than the previous rates for years 2-5 and slightly higher thereafter. Assumed rates of disability were changed as recommended in the June 30, 2019 experience study. The change results in fewer predicted disability retirements for males and females. The base mortality table for healthy annuitants and employees was changed from the RP-2014 table to the Pub-2010 General Mortality table, with adjustments. The base mortality table for disabled annuitants was changed from the RP-2014 disabled annuitant mortality table to the PUB-2010 General/Teacher disabled annuitant mortality table, with adjustments. The mortality improvement scale was changed from Scale MP-2018 to Scale MP-2019. The assumed spouse age difference was changed from two years older for females to one year older. The assumed number of married male new retirees electing the 100% Joint & Survivor option changed from 35% to 45%. The assumed number of married female new retirees electing the 100% Joint & Survivor option changed from 15% to 30%. The corresponding number of married new retirees electing the Life annuity option was adjusted accordingly.

Changes in Plan Provisions. Augmentation for current privatized members was reduced to 2.0% for the period July 1, 2020 through December 31, 2023 and 0.0% after. Augmentation was eliminated for privatizations occurring after June 30, 2020.

2019 changes:

Changes in Actuarial Assumptions. The mortality projection scale was changed from MP-2017 to MP-2018.

Changes in Plan Provisions. The employer supplemental contribution was changed prospectively, decreasing from \$31.0 million to \$21.0 million per year. The State's special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

2018 changes:

Change of Assumptions. The mortality projection scale was changed from MP-2015 to MP-2017. The assumed benefit increase was changed from 1.00 percent per year through 2044 and 2.50 percent per year thereafter to 1.25 percent per year.

2017 changes:

Change of Assumptions. The Combined Service Annuity (CSA) loads were changed from 0.8 percent for active members and 60 percent for vested and non-vested deferred members. The revised CSA loads are now 0.0 percent for active member liability, 15.0 percent for vested deferred member liability and 3.0 percent for non-vested deferred member liability. 2) The assumed post-retirement benefit increase rate was changed from 1.0 percent per year for all years to 1.0 percent per year through 2 044 and 2.5 percent per year threafter.

NOTES TO THE REQUIRED SUPPLEMENTAL INFORMATION December 31, 2021

Note 1 CHANGE IN ACTUARIAL ASSUMPTIONS AND PLAN PROVISIONS (Continued)

A. Public Employees Retirement Association – General Employees Retirement Fund (Continued)

2016 changes:

Changes in Actuarial Assumptions: 1) the assumed post-retirement benefit increase rate was changed from 1.0% per year through 2035 and 2.5% per year thereafter to 1.0% per year for all future years. 2) The assumed investment return was changed from 7.9% to 7.5%. The single discount rate was changed from 7.9% to 7.5%. 3) Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth, and inflation were decreased by 0.25% to 3.25% for payroll growth and 2.50% for inflation.

2015 changes:

Changes in Plan Provisions: On January 1, 2015, the Minneapolis Employees Retirement Fund was merged into the General Employees Fund, which increased the total pension liability by \$1.1 billion and increased the fiduciary plan net position by \$892 million. Upon consolidation, state and employer contributions were revised.

Changes in Actuarial Assumptions: The assumed post-retirement benefit increase rate was changed from 1.0% per year through 2030 and 2.5% per year thereafter to 1.0% per year through 2035 and 2.5% per year thereafter.

B. Public Employees Retirement Association – Public Employees Police and Fire Fund

2021 changes:

Changes in Actuarial Assumptions. The investment return and single discount rates were changed from 7.50 percent to 6.50 percent, for financial reporting purposes. The inflation assumption was changed from 2.50 percent to 2.25 percent. The payroll growth assumption was changed from 3.25 percent to 3.00 percent. The base mortality table for healthy annuitants and employees was changed from the RP-2014 table to the Pub-2010 Public Safety Mortality table. The mortality improvement scale was changed from MP-2019 to MN-2020.

The base mortality table for disabled annuitants was changed from the RP-2014 healthy annuitant mortality table (with future mortality improvement according to Scale MP-2019) to the Pub-2010 Public Safety disabled annuitant mortality table (with future mortality improvement according to Scale MP-2020). Assumed rates of salary increase were modified as recommended in the July 14, 2020 experience study. The overall impact is a decrease in gross salary increase rates. Assumed rates of retirement were changed as recommended in the July 14, 2020 experience study. The changes result in slightly more unreduced retirements and fewer assumed early retirements. Assumed rates of withdrawal were changed from select and ultimate rates to service-based rates. The changes result in more assumed terminations. Assumed rates of disability were increased for ages 25-44 and decreased for ages over 49. Overall, proposed rates result in more projected disabilities. Assumed percent married for active female members was changed from 60 percent to 70 percent. Minor changes to form of payment assumptions were applied.

Changes in Plan Provisions. There have been no changes since the previous valuation.

2020 changes:

Changes in Actuarial Assumptions. 1)The mortality projection scale was changed from MP-2018 to MP-2019.

Changes in Plan Provisions. 1) There have been no changes since the prior valuation.

2019 changes:

Change of Assumptions. 1) The mortality projection scale was changed from MP-2017 to MP-2018.

NOTES TO THE REQUIRED SUPPLEMENTAL INFORMATION December 31, 2021

Note 1 CHANGE IN ACTUARIAL ASSUMPTIONS AND PLAN PROVISIONS (Continued)

B. Public Employees Retirement Association – Public Employees Police and Fire Fund (Continued)

2018 changes:

Change of Assumptions. 1) The mortality projection scale was changed from MP-2016 to MP-2017.

2017 changes:

Change of Assumptions. 1) Assumed salary increases were changed as recommended in the June 30, 2016 experience study. The net effect is proposed rates that average 0.34 percent lower than the previous rates. 2) Assumed rates of retirement were changed, resulting in fewer retirements.3) The Combined Service Annuity (CSA) load was 30 percent for vested and non-vested deferred members. The CSA has been changed to 33 percent for vested members and 2 percent for non-vested members.4) The base mortality table for healthy annuitants was changed from the RP-2000 fully generational table to the RP-2014 fully generational table (with a base year of 2006), with male rates adjusted by a factor of 0.96. The mortality improvement scale was changed from Scale AA to Scale MP-2016. The base mortality table for disabled annuitants was changed from the RP-2000 disabled mortality table to the mortality tables assumed for healthy retirees. 5) Assumed termination rates were decreased to 3.0 percent for the first three years of service. Rates beyond the select period of three years were adjusted, resulting in more expected terminations overall. 6) Assumed percentage of married female members was decreased from 65 percent to 60 percent.

2017 changes: (Continued)

7) Assumed age difference was changed from separate assumptions for male members (wives assumed to be three years younger) and female members (husbands assumed to be four years older) to the assumption that males are two years older than females. 8) The assumed percentage of female members electing Joint and Survivor annuities was increased. 9) The assumed post-retirement benefit increase rate was changed from 1.00 percent for all years to 1.00 percent per year through 2064 and 2.50 percent thereafter.

2016 changes:

Changes in Actuarial Assumptions: 1) the assumed post-retirement benefit increase rate was changed from 1.0% per year through 2037 and 2.5% thereafter to 1.0% per year for all future years. 2) The assumed investment return was changed from 7.9% to 7.5%. The single discount rate changed from 7.9% to 5.6%. 3) The assumed future salary increases, payroll growth, and inflation were decreased by 0.25% to 3.25% for payroll growth and 2.50% for inflation.

2015 changes:

Changes in Plan Provisions: The post-retirement benefit increase to be paid after attainment of the 90% funding threshold was changed, from inflation up to 2.5%, to a fixed rate of 2.5%.

Changes in Actuarial Assumptions: The assumed post-retirement benefit increase rate was changed from 1.0% per year through 2030 and 2.5% per year thereafter to 1.0% per year through 2037 and 2.5% per year thereafter.

C. Volunteer Fire Relief Association

2019 changes:

None.

NOTES TO THE REQUIRED SUPPLEMENTAL INFORMATION December 31, 2021

Note 1 CHANGE IN ACTUARIAL ASSUMPTIONS AND PLAN PROVISIONS - (Continued)

C. Volunteer Fire Relief Association Fund – (Continued)

2018 changes:

Changes in Actuarial Assumptions: A) The expected investment return and discount rate decreased from 6.25% to 5.75% to reflect updated capital market assumptions. B) The mortality and withdrawal assumptions were updated from the rates used in the July 1, 2016 Minnesota PERA Police & Fire Plan actuarial valuation to the rates used in the July 1, 2018 Minnesota PERA Police & Fire Plan actuarial valuation. C) The inflation assumption rate was reduced from 2.75% to 2.50%

2017 changes:

None.

2016 changes:

Changes in Actuarial Assumptions: The expected investment return and discount rate increased from 6.00% to 6.25% to reflect updated capital market assumptions.

2015 changes:

None.

2014 changes:

None.

MINNESOTA LEGAL COMPLIANCE

Independent Auditor's Report

Honorable Mayor and Members of the City Council Annandale, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of the governmental activities, business-type activities, each major fund and the aggregate fund information of the City of Annandale (the City) as of and for the year ended December 31, 2021, and the related notes to the financial statements, and have issued our report thereon dated May 20, 2022.

The *Minnesota Legal Compliance Audit Guide for Cities*, promulgated by the State Auditor pursuant to Minn. Stat. § 6.65, contains seven categories of compliance to be tested: contracting and bidding, deposits and investments, conflicts of interest, public indebtedness, claims and disbursements, miscellaneous provisions, and tax increment financing. Our audit considered all of the listed categories.

In connection with our audit, nothing came to our attention that caused us to believe that the City failed to comply with the provisions of the *Minnesota Legal Compliance Audit Guide for Cities*. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the City's noncompliance with the above referenced provisions.

This report is intended solely for the information and use of those charged with governance and management of the City and the State Auditor and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH <u>GOVERNMENT AUDITING STANDARDS</u>

Honorable Mayor and Members of the City Council City of Annandale Annandale, Minnesota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Annandale, Minnesota (the City), as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated May 20, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses, which we consider to be significant deficiencies as items 2021-001 and 2021-002.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed two instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*, as noted in the schedule of findings and responses.

City's Response to Findings

The City's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. The City's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

SCHEDULE OF FINDINGS AND RESPONSES ON LEGAL COMPLIANCE AND INTERNAL CONTROL December 31, 2021

CURRENT YEAR FINANCIAL STATEMENT FINDINGS

Significant Deficiencies:

2021-001. Auditor Prepared Financial Statements and Related Footnotes

Condition: The City does not have an internal control system designed to provide for the preparation of the financial statements and the related notes being audited. However, based on the degree of complexity and level of detail needed to prepare the financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP), the City has requested the auditors to prepare them. Criteria The preparation of the financial statements and the related notes are the responsibility of management. Cause: There are a limited number of office employees and resources available to allow for the adequate preparation of the financial statements and the related notes by the City. Effect: This could result in a material misstatement to the financial statements and related notes that would not be prevented or detected and corrected as a result of the City's current internal control. The City should continue to request the assistance to draft the financial statements and related notes and *Recommendation:* thoroughly review these financial statements after they have been prepared so the City can take responsibility

Corrective Action Plan (CAP)

for them.

- A. Explanation of Disagreement with Audit Finding: There is no disagreement with the audit finding.
- B. Actions Planned in response to Finding: The City does not plan to take any action but is aware of the condition. Based on the cost of correcting this deficiency, the City has decided to accept the risk associated with this deficiency.
- C. Official Responsible for Ensuring CAP: The City Administrator will review the financial statements and related footnotes and approve them.
- D. Planned Completion Date for CAP: The corrective action plan for this finding will be completed by December 31, 2022.
- E. *Plan to Monitor Completion of CAP:* The City Council will monitor this corrective action plan to review the recommendations and take appropriate action.

2021-002. Segregation of Duties

Condition:	There is an absence of appropriate segregation of duties consistent with appropriate control objectives due to a limited number of employees.
Criteria	The basic premise is that no one person should have access to both physical assets and the related accounting records or to all phases of a transaction. The lack of such controls could result in the occurrence of a material error or fraud in relation to the financial statements not being detected by management.
Cause:	The City has assigned duties to staff based on a cost-benefit relationship to the City and the practicality of the level of staffing the City maintains.
Effect:	The lack of adequate segregation of duties could adversely affect the City's ability to initiate, record, process, and report financial data consistent with the assertions of management in the financial statements.
Recommendation:	The City should continue to monitor and evaluate the job responsibilities assigned to staff to determine whether there is an unacceptable risk.

SCHEDULE OF FINDINGS AND RESPONSES ON LEGAL COMPLIANCE AND INTERNAL CONTROL December 31, 2021

2021-002. Segregation of Duties - (Continued)

Corrective Action Plan (CAP)

- A. Explanation of Disagreement with Audit Finding: There is no disagreement with the audit finding.
- B. Actions Planned in response to Finding: The City is aware of the limited segregation of duties and will continue to review internal controls and make changes when they can be made.
- C. Official Responsible for Ensuring CAP: The City Administrator will monitor the effectiveness of the above actions and make changes as considered appropriate.
- D. Planned Completion Date for CAP: The corrective action plan for this finding will be completed by December 31, 2022.
- E. *Plan to Monitor Completion of CAP:* The City Council will monitor this corrective action plan to review the recommendations and take appropriate action.

STATUS OF PRIOR FINANCIAL STATEMENT FINDINGS

The prior audit contained three findings:

2020-001. Payroll Processing

Condition:	During our audit, we proposed material audit adjustments to adjust payroll and payroll liability accounts to the proper year-end balances.
Current status:	This condition was corrected during the current year audit of the financial statements.

2020-002. Preparation of financial statements and related footnotes

- *Condition:* The City does not have an internal control system designed to provide for the preparation of the financial statements being audited.
- *Current status:* This condition is noted during the current year audit of the financial statements.

2020-003. Segregation of Duties

Condition:	There is an absence of appropriate segregation of duties consistent with appropriate control objectives due to a limited number of employees.
Current status:	This condition is noted during the current year audit of the financial statements.
